Take the fuss out of water transfer systems and experience the highest possible water savings from your rainwater tank.

The Waterboy Wizard is an innovative rainwater enclosed bypass system that is a leading water saving product in its field. The system is fully enclosed and automatically switches to mains water when the tank is empty ensuring a reliable supply of water to your toilet, washing machine and garden tap. Ideal for above ground tanks of any size the Waterboy Wizard offers simple installation and minimal maintenance making it the ideal solution for any rainwater tank.

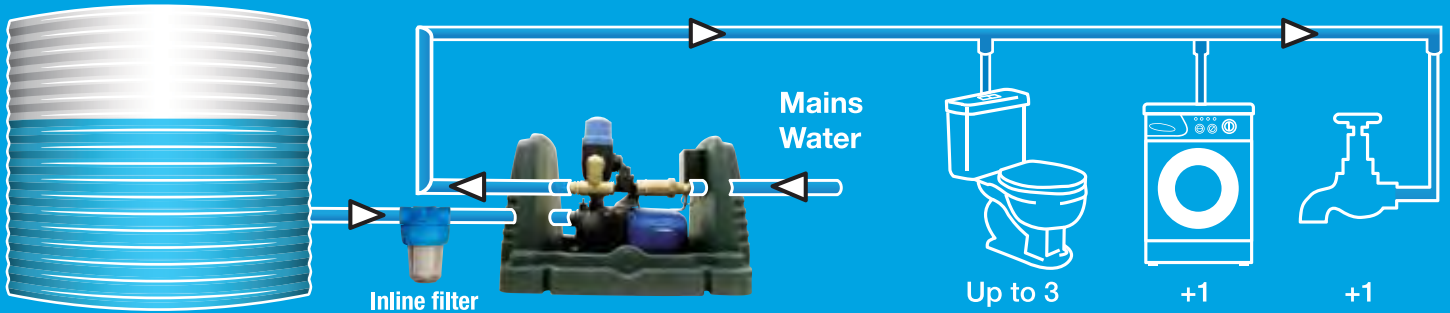

Waterboy WIZARD
